Snohomish Launches *Experience Snohomish* App

The City of Snohomish is bringing another communication tool to town with a new smartphone app providing enhanced services for our visitors and residents. In the interest of building a stronger connected community, the City of Snohomish is excited to announce that our new *Experience Snohomish* App has arrived.

The app, which was developed by CITYCENTER Marketing Solutions, will provide current and constantly updated information about all that Snohomish has to offer – including businesses, parks, schools, civic organizations, events, and more. The app gives users a way to communicate with the City staff through a report-a-problem link to report pot holes, stop light outages and road debris. It will also be using the cutting edge beacon technology that will allow users to share in real time experiences they have when visiting our parks, events and even some businesses. The app will also make it easy for users to communicate directly with the City's elected officials and staff.

This exciting new app is available as a free download in the Android and IOS app stores, just search for *Experience Snohomish*.
