

Street Sweeper Routes

Street Sweeping Route Number

- 1 - First Thursday of every month
- 2 - Second Thursday of every month
- 3 - Third Thursday of every month
- 4 - Fourth Thursday of every month
- 5 - Overlaps other routes
- City Boundary
- Urban Growth Area

Schedule is tentative. It may change or be delayed due to reasons including, but not limited to, heavy rains, strong winds, or snow.

Schedule in Fall (approximately mid October - beginning of December) will be twice a week. The second day will be focused on hot spot areas or where sweeping is most necessary.

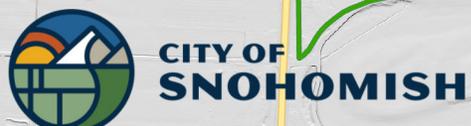

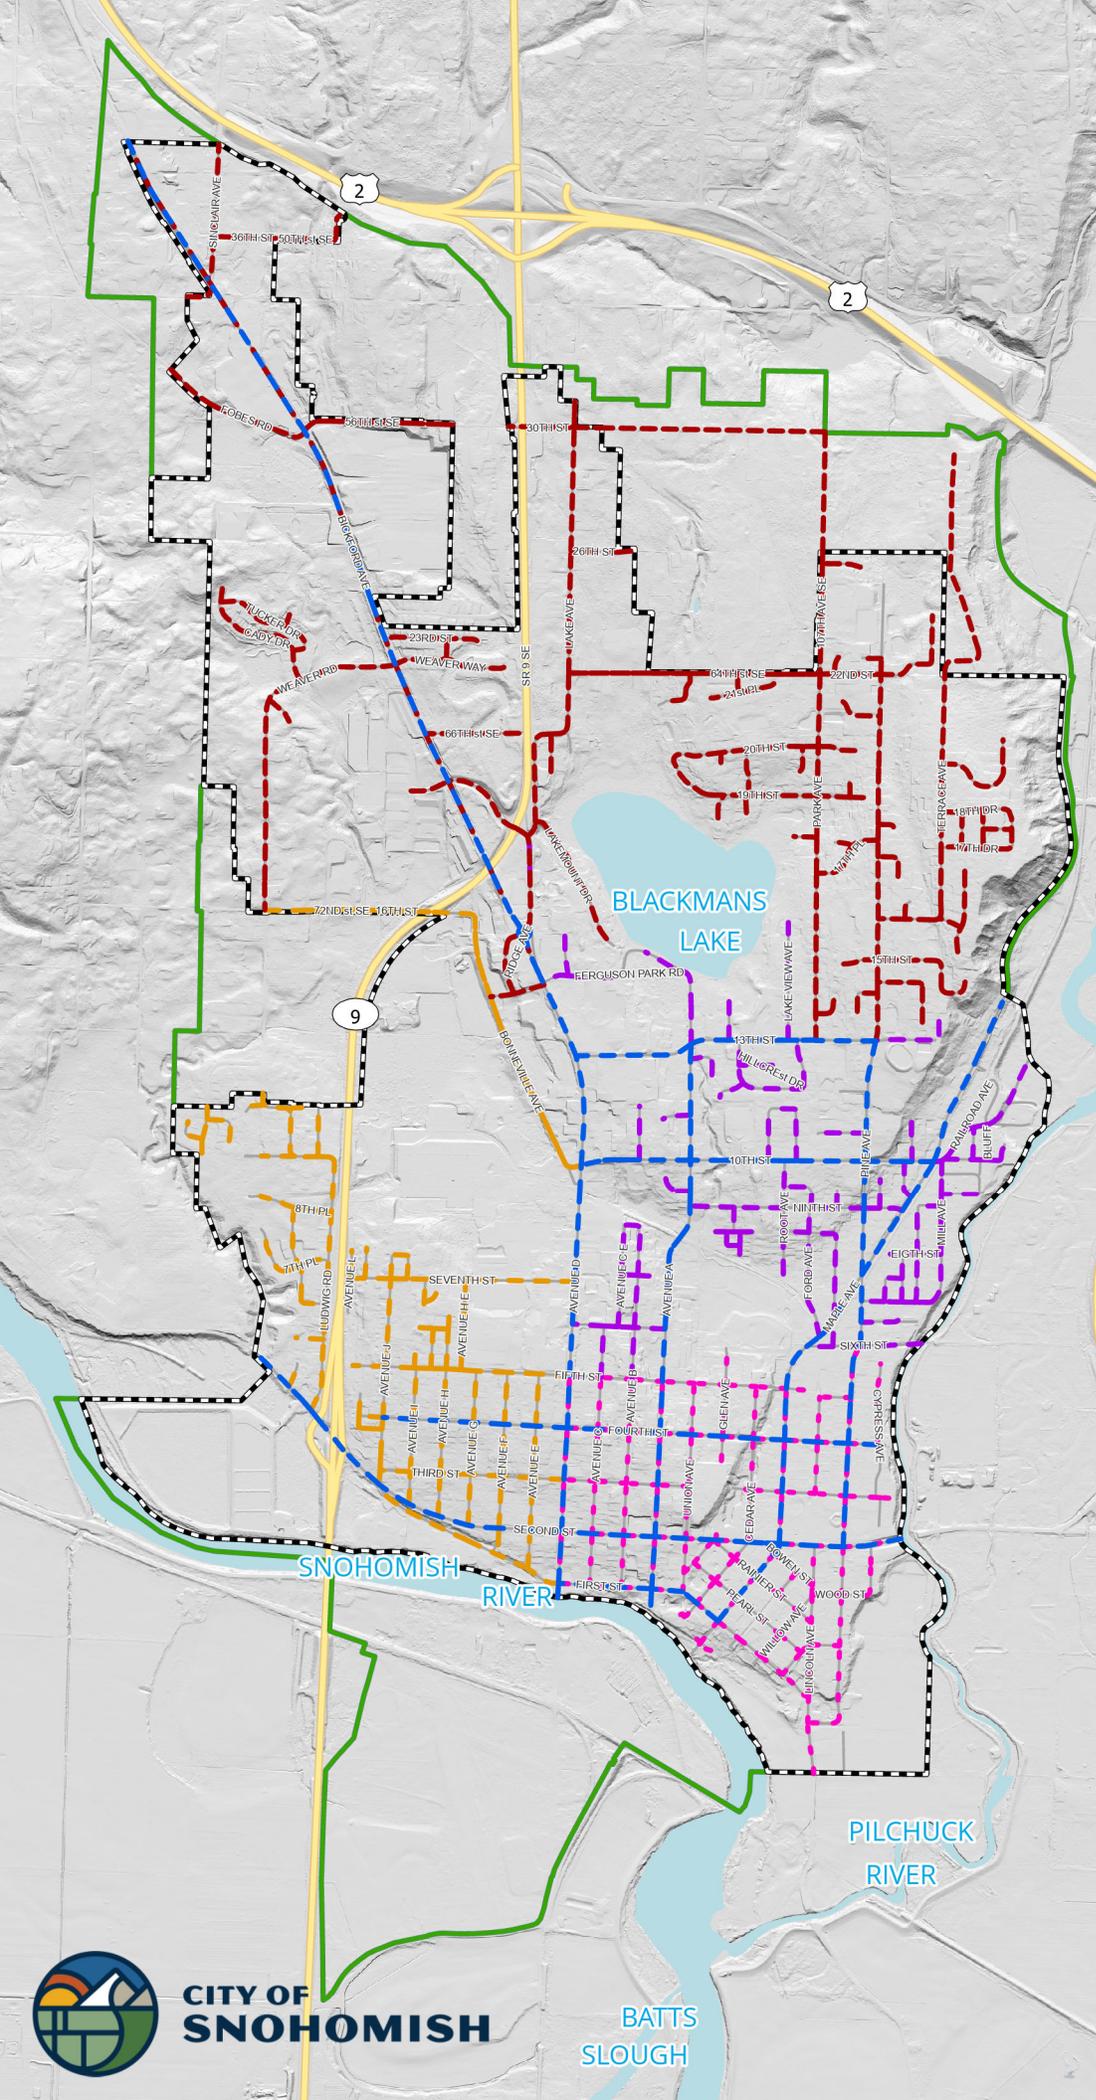

You can help make street sweeping more efficient by taking the following actions:

- Dispose of yard leaves in a yard waste container or use alternative methods to managing leaf litter
- Do not pile leaves in the street, since sweepers cannot get through them effectively
- Do not blow leaves from private property onto the street. This causes storm drain backups, flooding, and may prevent the sweeper from working efficiently
- On the day of your scheduled route, move your car away from the curb
- Do not park over stormwater grates

In case of an emergency please contact:
