ATTENTION: The levee, dike or other structure that impacts flood hazards inside the boundary has not been shown to comply with Section 65.10 of the NFIP Regulations. As such this FIRM panel will be revised at a later date to update the flood hazard information associated with this structure.

The flood hazard data inside this boundary on the FIRM panel has been republished from the previous effective (historic) FIRM for this area, after being converted from NGVD 29 to NAVD 88.
