

Yard watering calendar

From your water provider

Only water every three days

Use the last two digits of your house number to find your days to water.

00-15

16-32

33-99

Water conservation tips

- Build up your soil with compost and mulch to create healthy soil that retains water.
- Plant native plants. They require less water and less care.
- Adjust your lawn mower to a higher setting. Taller grass blades hold moisture longer.
- Sweep sidewalks and patios with a broom instead of hosing them off.
