

## Public Safety & City Services Campus

The City of Snohomish is working with Snohomish County Fire District No. 4 in a joint venture to create a public safety and city services combined campus to improve service and efficiency and save taxpayer dollars. The combined campus will house new stations for both the Fire District and the Snohomish Police Department, as well as City Hall and facilities for other City services.

Having public safety and city services share space is more cost-effective in serving the community. This campus would also include training rooms for emergency personnel, community meeting space, board/council chambers, and space for the agencies to better coordinate during emergencies and weather events.

### RECENT DEVELOPMENTS

- Snohomish Fire District 4 purchased parcels on Pine Avenue, known as the Steuber Property, for \$6.35M.
- The property transfer was closed October 31, 2023, and property owners/tenants moved out in January 2024.
- The City agreed to purchase 57% of the property and has paid for its portion.

### FUNDING AND NEXT STEPS

- Finalizing construction estimate, expected to be complete in Q1 of 2024.
- Received \$700k from Washington State Legislature in the Capital Budget for design and permitting. Seeking additional funding from governmental partners.

*I am excited at the prospect of bringing all our agencies together because we are all focused on the mission of serving the Snohomish community. Sharing a campus will use taxpayer funds more effectively as we plan for the future of Snohomish, maintain the levels of service our community expects, and respond more cohesively in the event of an emergency.*

– Mayor Linda Redmon
